I have a folder in my simulator's applications folder named "myapp", which contains xml files and images that I want to pull into my project, but don't know the path to it. I want to do this so that I can pull in the files from a sample project that I am using on the same machine. I found two other stackoverflow questions that seemed to be asking the same question, so I posted this question to combine both of them: How to get xml files and images in the " 82138339de
